

Businesses with High Growth Potential Selected for ScaleUp Ozarks

FAYETTEVILLE, October 31, 2016 – Fifteen local businesses have been selected to join an elite business development program, ScaleUp Ozarks. Delivered by Startup Junkie Consulting and funded by the U.S. Small Business Administration, ScaleUp is designed to help small firms with high potential “scale up” and grow their businesses to allow them to provide more jobs and have a greater economic impact, both locally and nationally. “There is every possibility that one or more of these fifteen companies could be the next billion-dollar business in Arkansas. We’re excited to get started with this cohort,” said Jeff Amerine, Principal at Startup Junkie Consulting.

The new ScaleUp Ozarks cohort companies are:

- 3E Software, Inc. (<http://www.3esoftware.com/>)
